

Logbook - BDSA15

Dennis Thinh Tan Nguyen, William Diedrichsen Marstrand, Jacob Mullit Mniche,
Thor Valentin Aakjr Olesen Nielsen

November 17, 2015

Contents

1	Log for date: 11/11-2015	3
2	Log for date: 11/12-2015	4
3	Log for date: 14/11-2015	5
4	Log for date: 11/16-2015	6
5	Log for date: 11/17-2015	7

1 Log for date: 11/11-2015

Start: 14:00 — End: 16:00

Member attendance:

- Dennis Thinh Tan Nguyen attended.
- Jacob Mullit Mniche attended.
- Thor Valentin Aakjr Olesen Nielsen attended.
- William Diedrichsen Marstrand attended.

Meeting pins

- Set up Trello and Pomello
- Set up Log book
- Initialized C# program structure

Sprint Planning

- Sudy ConfigurationUI (Web Service Interface)
- Internal communication among subsystems
- Subsystems Classes
- Storage Interface
- Work Load
- Prviding Blue Team API
- Dependency Injections
- Using Adapter Pattern

2 Log for date: 11/12-2015

Start: 13:00 — End: 16:00

Member attendance:

- Dennis Thinh Tan Nguyen attended.
- Jacob Mullit Mniche attended.
- Thor Valentin Aakjr Olesen Nielsen attended.
- William Diedrichsen Marstrand attended.

Meeting pins:

- WebAPI (Fra Steven) - Adapter Pattern, Facade (Autosys Server)
- Initialized and refactored project structure - packages to projects
- UML Subsystem refactored
- UML Entity Object refactored
- Entities first

Branching Rules

- First create a local branch
- Then publish the branch so it resides on oring/master
- Required start name for naming convention for branches: implementation/, testing/, documentation/, bugfix/, refactor/

3 Log for date: 14/11-2015

Start: 12:30 — End: 15:10

Member attendance:

- Dennis Thinh Tan Nguyen attended.
- Jacob Mullit Mniche attended.
- Thor Valentin Aakjr Olesen Nielsen not attended.
- William Diedrichsen Marstrand attended.

Meeting pins:

- Creating overview of every subsystems
- Updated LucidChart of subsystems
- Defining classes and their responsibilities of every subsystems (Application logic and Storage)

Sprint Planning:

- Implement design decision for the new codeskeleton

4 Log for date: 11/16-2015

Start: 16 — End: 21

Member attendance:

- Dennis Thinh Tan Nguyen attended.
- Jacob Mullit Mniche not attended.
- Thor Valentin Aakjr Olesen Nielsen attended.
- William Diedrichsen Marstrand attended.

Meeting pins:

- Code Skeleton completed.
- Pull requests reviewed.
- Merged branches into master.
- Discussed about work processes and how we contact each other outside ITU. Overall conflict is that study related activities seem not to be separated from other activities thus causing a tense stressful environment for certain members. One proposal is to keep track of each members time board so that people know when they can contact each other or when they should not be disturbed. This will be done with a document showing everyones schedule and using status tags on Trello.

Sprint Planning:

- Need to plan future work and time for meetings to achieve a clear distinction between activities related to ITU and others.
-

5 Log for date: 11/17-2015

Start: 9:00 — End: 12:00

Member attendance:

- Dennis Thinh Tan Nguyen attended.
- Jacob Mullit Mniche not attended.
- Thor Valentin Aakjr Olesen Nielsen attended.
- William Diedrichsen Marstrand attended.

Meeting pins:

- Cleaned up code skeleton
- Added missing classes
- Implemented WebApi

Sprint Planning:

- Update SDD and RAD (UML subsystems, datafield definition, user definition, update entity object model)
- Create time schedule for all group members and dertermine meeting hours
